

Hustings Questions

Should the £24 subscription fee to the Trust be increased?

NM: No because this would make it less accessible to some of those who wish to join. Instead, the focus must be on getting members to increase, or add if they haven't already got, the donation amount contributed on top of their subscription fee.

How do you think the Supporters' Trust should engage with 15-29 year-old supporters?

NM: An incredibly difficult task which the Trust has tried on numerous occasions with many different methods to achieve. I think the best way to approach this would be to ask our younger membership for their ideas and perhaps establish a sub-group specifically consisting of younger members to take this task forward.

Where do you see the trust in 3 year's time?

NM: Still relevant, still in ownership, and hopefully with an ever- increasing membership as it is only by growing the membership that we can grow the Club.

In your view what is the role of the Trust?

NM: To ensure the Club is run efficiently and sustainably with the community at its heart. Further it is to maximise income from the membership and any other avenue to support the club's ever expanding financial needs.

What 3 skills they would you bring to the TB?

NM: An understanding of the Constitution and Rules to advise and make sure the TB follows them; A challenging nature which doesn't accept things at face value; Years of experience meaning I have seen most situations and how they are solved.

Which TB working group would you like to join?

NM: I'm already on the Ownership and Membership Working Group and would look to continue with that.
