

As request to all Trust members- Please vote

As one of the ORIGINAL successful candidates voted on to the Trust board for the first time, this was one of my most proudest moments BUT I fully back the rerunning of the election and would be delighted if you voted for me, as stated in my first manifesto was please vote this is what sets ECFC apart for all other EFL L1 clubs.

While there are always areas of improvement, the Trust has created a solid base and has transformed the club over the last 20 years, I would focus on election reform to be more open to the membership with its engagements (i.e. Hustings time and date) and possible look at the timing of the election moving forward so not in the football season.

My reason for standing is to contribute and offer my passion and knowledge to the Trust as member of the bar support team, I have the pleasure to interacting with a varied range of supporters and seeing in real life how fans from VIP to the child on the big bank all have desire for ECFC success.

As a lady in football, I believe in my views on life and The Trust is interlinked, and I am sold into the 'Community' football model.

I have supported the club all my life, with my family now growing up; I have time to commit to the Trust in my everyday life.

We must create a Trust that moves with the times that invests in key areas of the club for the future, Eco-Friendly technology, self sustainable/renewable energy plus we must also maximise non-match day revenues, to enable us to develop. We must also manage costs effectively, while expanding our supporter offering at the club. I have a creative mind to add to the task. The club will have some testing times in League '1', we need to be aware that success is focused on the pitch but the measure is well beyond 3 points on a Saturday.

I have specific skills that would Support the Trust & Club.

We must continue the legacy for future generations.

Debra Noble born with ECFC DNA family history over 100 years linked to our much loved club

Passion, honesty, integrity.
