

Alistair Yates – Trust Nomination Notes

I am standing for election this year, and asking for your vote to become a Trustee, as I believe I have the skills and experience the Trust is desiring. I have multi-faceted business skills, as I run a successful business, which has been trading for over 10 years. I have the vision to help guide the long-term strategy of the Trust, this year I have supported the Trust by attending all Trust Board meetings as an observer, I am the only non-Trust member to have attended all meetings. I hope this shows my commitment to the Trust and its values.

I am a second-generation City fan, my children our third generation City fans, we are all season ticket holders. We travel home and away. I have supported the club since 1975.

Away from Exeter I am an FA accredited Level 1 Youth Coach, qualified FA Talent ID scout, I run a youth football team. I run a successful supply chain business consultancy. I am a certified programme manager and business specialist in organisational change and development. Which are skills I think the trust need to move forward.

I am looking to maintain the stability of the Trust, support the ongoing development of the Trust to increase its brand awareness, while looking at commercial opportunities to develop the organisation I am delighted the Trust have implemented my manifesto ideas in the past of electronic voting; I am also delighted to see work on adjusting the share structure of the club. Two key areas in my manifesto last year. I have been engaged by current Trustees to support initiative this year.

I am standing for one very important reason only, for the Trust to actively promote its Trust elections in the wider Exeter community, to get more people standing and more people involved.

I am Devon born and bred and live out of the area for business reason. At the time of writing, I have attended every home and away game. (Orient, Barrow, Scunthorpe & Harrogate) I have also paid for hospitality for a social group. With digital technologies I am confident I could be active for the Trust. I would treat your nomination vote with great care and responsibility. I understand the Trust are seeking competences I possess and would be delighted to deliver.

Thanks! Al
